EDUCATION

PSG Institute of Technology and Applied Research

Oct 2021 – May 2025

Bachelor of Engineering in Computer Science

CGPA: 8.28/10.0

- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Design, Operating Systems, Computer Networks, Database Management Systems, Software Engineering, Complexity Analysis

SPIC Nagar Higher Secondary School

Jun 2020 – May 2021

Higher Secondary Certificate - Computer Science

Percentage: 95.53%

TECHNICAL SKILLS

Programming Languages: Python, C/C++, Java, JavaScript, SQL, Bash, Perl

Frameworks/Libraries: React.js, Spring Boot, Node.js, Express.js, Flask, Pandas, NumPy

Databases & Storage: MySQL, PostgreSQL, MongoDB, SQLite,

Relational Databases

Cloud & DevOps: AWS (Lambda, S3, EC2), Azure, Docker, Jenkins, GitHub Actions, Distributed Computing

Development Practices: Agile, Cross-Disciplinary Collaboration, Code Design, High-Quality Software Development

PROFESSIONAL EXPERIENCE

Mercedes-Benz Research & Development India

Nov 2025 – Present

Graduate Apprentice Trainee - Software Engineer

Bengaluru, India

- Developing automation solutions for manufacturing operations using **Python**, implementing scalable systems for process optimization
- Collaborating with cross-disciplinary teams to design and build innovative solutions for production workflow efficiency
- Working in agile environment to deliver high-quality software for production system monitoring

Amazon Development Center India

Jan 2025 – Jun 2025

Software Development Engineer Intern | Technical Internship

Chennai, India

- Collaborated with experienced cross-disciplinary Amazonians on framework migration from **Java** to **C++**, gaining expertise in performance optimization and memory management in distributed computing environments
- Contributed to designing and building scalable, fault-tolerant systems supporting microservices architecture and distributed systems design patterns
- Developed testing frameworks using **C++** and **Python** to deliver high-quality software, supporting code quality initiatives in large-scale distributed environments
- Worked in agile environment handling ambiguous problems and creating solutions for complex technical challenges

SAP Labs India

Apr 2023 – May 2023

Software Developer Intern | Technical Internship

Bengaluru, India

- Built document processing application using **React.js** and **Spring Boot** with **MongoDB**, creating solutions for multi-tiered systems
- Designed and implemented REST APIs demonstrating object-oriented design principles and problem-solving capabilities
- Participated in code reviews and followed agile methodologies, collaborating with cross-functional teams on product development

TECHNICAL PROJECTS

MedQuery System | Python, Llama, PostgreSQL, Distributed Systems

- Designed and built innovative NLP-to-SQL translation system for Electronic Health Records using algorithm design and data structures, achieving **83.6% accuracy**
- Implemented scalable query systems with **PostgreSQL** relational database, optimizing complexity and performance for distributed data processing
- Created solutions to run predictions on distributed systems, demonstrating problem-solving skills in handling ambiguous technical challenges

Expense Tracker with ML | Python, Flask, MongoDB, Machine Learning

- Built distributed multi-tiered web application for expense management using **Python Flask** backend and **MongoDB** storage system
- Designed scalable, fault-tolerant architecture with user authentication demonstrating object-oriented design and algorithm implementation
- Implemented machine learning categorization features, creating innovative solutions from broadly defined problems

ACHIEVEMENTS & TECHNICAL EXCELLENCE

- **Algorithm Proficiency:** Top **6.69%** globally on LeetCode with **1000+ problems solved** demonstrating strong data structures, algorithm design, and problem-solving skills in **Python, C++ and Java**
- **Technical Certifications:** PCAP Python Programming, CCNA Network Associate, Oracle Cloud Infrastructure 2025 AI Foundations Associate
- **Leadership & Collaboration:** NSS Team Lead managing 50+ volunteers, Campus Math Club Coordinator (2022–2024), demonstrating cross-disciplinary collaboration and team leadership
- Strong foundation in complexity analysis, optimization mathematics, and abstract thinking applied to technical challenges
